

Memory/Find Ten

Not Yet Within Expectations	Meets Expectations (minimally)	Fully meets Expectations	Exceeds Expectations
Unable to identify strategies.	Has a limited bank of strategies.	Uses multiple strategies	Uses efficient strategies
May include major errors in recording or calculations.	May include some recording or calculation errors; comparisons are generally reasonable.	Recording and calculations are generally accurate; may be minor errors.	Accurate recording and calculations, including units; uses mental math.

Players: 2 or more

Skills: Recognizing numbers
Addition, multiplication

Tools: 36 Cards A-9 (A=1)

Procedure:

1. Place all the cards face down in an array of 9x4.
2. Player 1 turns over 2 cards. If they match, player 1 keeps the cards. If not, they get turned back over.
3. Take turns until all of the cards are gone.
4. The player with the most pairs wins.

Variations:

Leave cards face up if they do not match.
A match is the original card plus 1 (ie. a 5 and a 6)
Number **and** colour must match
Odd numbers or even numbers are a match

Level 2: Turn over 2 cards. If they add to 10, keep them. If they are less than 10, you can turn over a third card to try and make 10. If not, all cards are turned back over.

Level 3: Change the target number to 18.

Level 4: Turn over 2 cards. The first person to say the correct product keeps the cards.
